Tools & Workflow: Git, GitHub, Postman, Vercel, Pull Requests, Code Review, Next.js App Router & RSC Familiarity, GSAP, next-intl

PROFESSIONAL EXPERIENCE

Frontend Engineer | Design Engineering | Feb 2024 – Present

- Contribute to React and Next.js applications spanning enterprise project management, customer portals, payment experiences, communication dashboards, and corporate websites.
- Develop frontend modules including data tables, filters, forms, modal workflows, reusable components, and responsive interfaces.
- Integrate REST APIs and implement loading, error, authentication, multilingual, and role-aware UI states; collaborate with design and backend teams.
- Work in shared codebases using Git, pull requests, code reviews, and iterative feature delivery.

Freelance Frontend Engineer | iVision | Nov 2025 – Present

- Contribute frontend pages and modules for property management, museum visitor services, and client websites in project teams.
- Implement responsive UIs and interactive workflows, translating requirements and feedback into maintainable features.

SELECTED PROJECTS

RDApp — Enterprise Project Management | Contributed modules for project workflows, settings, configurable data tables, filters, modals, and multilingual API-integrated interfaces.

EndUser — Customer Portal | Worked on client workflows involving project requests, invoices, visits, reports, account functionality, and service interactions.

WhatsApp Dome (ChatPlus) — Messaging & Support | Contributed dashboard features for conversations, broadcasts, contacts, support tickets, and administration.

RDApp Payment Page — Client Payment Experience | Worked on a standalone payment interface with invoice summaries, payment choices, confirmations, receipt workflows, and multilingual UI.

Owner Management — Property Operations | Developed modules for properties and units, ownership and tenancy information, contracts, invoices, and payments.

Designal Website & DomApp — Corporate Websites | Contributed responsive pages, reusable components, and animated interfaces across corporate websites.

Zat Nakhl & Dar Shagn — Client Websites | Developed responsive visitor, service, registration, booking, and enquiry-related website pages, as appropriate to each project.

Flow Workspace — Independent Freelance | Developed coworking and café interfaces for memberships, galleries, WhatsApp booking, and digital menu/order flows.

Dalalat — Selected Contributions | Contributed to specific frontend tasks within a larger web platform.

EDUCATION

Bachelor of Business Administration | Al Azhar University | 2016–2020 | Very Good
